

Padamshri S. Milkha Singh Showers his blessings on International Elders' Day

1 Oct, 2016: It was a memorable day for the school when **Padamshri S. Milkha Singh** visited the school as Chief guest for the international Elders' Day Celebrations. On his arrival, MD Shri Parveen Setya welcomed him. His inspirational presence made the day special for all the students & Sr. Citizens present on the occasion. Appreciation Certificates were also given on the occasion to dedicated volunteers of the Sr. Citizen Association. His motivational address was highly appreciated and the hall reverberated with a huge applause. The school students added colour to the show by presenting a scintillating cultural bonanza.

Glimpses of Accolades 2015-16

'The principle goal of Education in Schools should be creating men & women who are capable of doing new things, not simply repeating what others have done.'

Keeping this thought in mind, Gurukul Global gives immense opportunities to its students to participate in different arenas and win laurels. Presenting a glimpse of our activities on various occasions.

Activities Galore at Gurukul Global School

At Gurukul Global, we understand that students have to be prepared and molded as Global Citizens, wherein, they learn to value, respect, be emphatic and sensitive towards the needs of others before self.

A competitive, yet compassionate community can be formed by co-curricular activities, that focus on developing communication skills, leadership qualities and teamwork. Keeping this in mind, we initiate a number of celebrations, special assemblies and expose students to an array of Inter and Intra school competitions & activities.

Let's have a glimpse of the numerous activities conducted during the session 2015-16.

CREATIVITY CORNER

ODE TO GRANDPARENTS

A grand parent is someone with silver in their hair and gold in their heart. Grandparents have a rich experience of life. School teachers teach us to be good students & professionals but grandparents help us to become Good Humanbeings. Grandparents have abundance of love for their grand children, they teach them virtues like honesty, kindness and faith,

Aryan Larola

REVERENCE TO GRANDPARENTS

Grandparents teach us the positive and negative aspects of life. When I want to play they become my friends. When I am in a problem they give me the right solutions for my problems and become my mentors and when they help me in my studies they become my teachers. I love my Grandparents.

Keshav

GLORIFYING GRANDPARENTS

Grandparents are like shady trees which offer their cool shade to the whole family. They are the store house of love, affection and warmth. Grandparents are a goldmine of knowledge as they have rich loads of real life experience which they share with their grand children. They are a link between the past and the future as they tell us about the customs and traditions and they tell us how to make our future bright and successful.

Vedansh

GRATIFYING GRANDPARENTS

The role of grandparents has always been important in a family. Grandparents are the support system of a family. They are the binding force between the members of a family. Since grandparents have lots of experience, the advice they lend us can be very useful and practical. Grandparents are of utmost importance as they have immense love and support for their families.

From the Principal's Desk

Dear Children,

Values are the internal embodiments that you need to infuse in every sphere of your life, at every stage. Your personality, your image that is visible to the outer world, is in fact, a reflection of your value system. Your thoughts and your actions are often, a manifestation of your values. Your values would help you to grow, develop and create the kind of future you want to experience. In today's era, when you are bombarded with unforeseen challenging situations; you, at times, would be forced to take decisions, in which your mind & heart would not be in tandem with each other.

At such junctures in life, a sound value system would guide you & be instrumental in shaping up your priorities & reactions. Your values act as indicators to help you analyze whether your life is proceeding on the right path or not.

When your actions & words are aligned with your values, you feel confident, contented & satisfied. But when your actions are not in consonance with your inherent value system, you soon begin to sense an uneasiness that becomes a source of constant disturbance.

As Gurukul Globalites, I urge you all to remember the words of the DALAI LAMA "Open your arms to change, but don't let go off your value system".
